

Interior Remodeling

An interior remodeling permit is required when work involving (4) or more trades are involved or if interior wall is added or removed. Any work involving electrical or mechanical requires a permit. Changing out of windows or doors requires a permit and you must have the installation instructions and Florida Product Approval number or documentation.

- Painting
- Flooring
- Trim Work
- Drywall
- Cabinetry

- Plumbing

Work involving
(4) items

Work that **always requires a permit:**

1. Changing out air conditioning unit;
2. Changing windows or doors;
3. Electrical work or reconnection;
4. Mechanical equipment replacement.
